Letter of Recommendation

Regarding:

M. David Lepine
Certified Irrigation Technicians
Professional Lawn Sprinkler Systems

November 12, 2005

To Whom It May Concern,

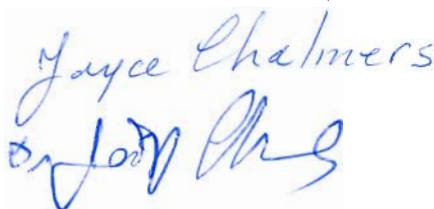

This letter is written to describe the excellent work done by M. Lepine and his crew on the installation of an irrigation system at our home at the above address. His thorough knowledge of the subject enables him to recommend the best and most cost effective solution to our irrigation needs. At the outset, he clearly explained to us what solutions were available so that we could choose as little or as much as we wanted. His prices are fair and reasonable; yet, he always uses the best materials. His people are pleasant and capable of working with the profession landscapers. Such flexibility is extremely important as coordination with the landscaper is essential. Indeed, he comes highly recommended by some of the finest and most well established landscaping companies in the city of Ottawa. If and when issues arise with the landscaper, the deck builder, the home owner or whomever, he has been here on short notice to solve whatever problem, minor or otherwise, may have arisen.

The solutions that he provides are the best for the lawn and garden. They save time, money, water and the environment. The rain sensor avoids watering after a rainfall. The fertilization system keeps the grass and plants heathy. This approach avoids the need for herbicides and we have chosen to cancel our contract with the lawn care company. The upshot of this is that our overall costs have actually dropped while the garden has improved and the effort required has been reduced. M. Lepine is very good to ensure that the home owner understands how to control the watering times to apply the right amount of water.

My wife and I have been delighted with the service we have received by this gentleman. We strongly recommend that anyone interested in having an irrigation system installed for his or her home use the services of M. Lepine.

Yours Truly,

Joyce M. Chalmers and
Dr. James H. Chalmers
